Special Session Call for Papers
International Symposium on Computer, Consumer and
Control, 2014

Special Session organizer: Prof. Weizhe Zhang

Session name: *Information Science.*

Introduction/ Call for papers

Information science is one of the most promising areas of research in recent years. It has made great progress across the world. From business and industrial scientific discovery, medical care, education, entertainment, environmental management, information science is essential, and will continue to contribute to the further development of all aspects of human endeavor.

In this special section, we focus on information technologies, as well as the application of emerging information technologies. It aims to unify the overall concept, and highlights the trends of modern theoretical research and application. Prospective authors are invited to submit original papers to the Special Session.

Indicative Topics/Areas

The topics of interest include, but are not limited to

- Architecture
- Compilers
- Parallel Computing
- Software Engineering
- Artificial Intelligence:
- Database
- Theoretical Computer Science
- Bioinformatics
- Formal Methods

- Programming Languages
- Graphics and HCI
- Systems and Networking
- Scientific Computing

Prospective contributors are invited to submit their paper to Prof. Zhang by email <mailto:zwz19492002@hotmail.com>. All presented papers will be published in the Proceedings and the excellent papers will be recommended for publication in the special issue of SCI Journal.
