**Special Session Call for Papers
International Symposium on Computer, Consumer and
Control, 2014**

Special Session Organizers: Prof. Yeong-Lin Lai
Prof. Yeong-Kang Lai

Session Name: *Advanced Devices, Sensors, Circuits, and Systems*

Introduction/ Call for Papers

Along with the rapid development of the emerging applications such as solar energies, sensors, wireless communications, medical cares, image processing, 3D display, and so on. Advanced devices, sensors, circuits, and systems are needed to be advanced to a new technology era to meet the stringent requirements and specifications of the emerging applications. How to innovate the technologies for advanced devices, sensors, circuits, and systems has now become an important issue. This session aims to provide researchers a forum on the updating information of advanced devices, sensors, circuits, and systems and promote the development of the related technologies.

This session includes the modern research results of the advanced devices, sensors, circuits, and systems. Prospective authors are invited to submit original papers to the Special Session: Advanced Devices, Sensors, Circuits, and Systems.

Indicative Topics/Areas

The topics of interest include, but are not limited to

- Advanced Processes.
- Advanced Solar Cells
- Advanced Devices
- Advanced Sensors
- Advanced Circuits
- Advanced Systems

- Advanced Packages
- Advanced Testing for Devices, Sensors, Circuits, and Systems
- Reliability Testing for Devices, Sensors, Circuits, and Systems

Prospective contributors are invited to submit their paper to Prof. Yeong-Lin Lai by e-mail yllai@cc.ncue.edu.tw. All presented papers will be published in the Proceedings and the excellent papers will be recommended for the publication in the special issues of SCI Journals.
