**Special Session Call for Papers  
International Symposium on Computer, Consumer and  
Control, 2014**

**Special Session organizer:** Prof. Chen-Chung Liu

**Session name:** *Intelligent Image and Signal Processing*

**Introduction/ Call for papers**

This session deals with new technologies for intelligent algorithms and architectures for image and signal processing. This special session combines advanced research themes in multimedia systems, image processing, signal processing, as well as their applications. Topics of interest include, but are not limited to:

1. Image identification and its applications
2. Signal processing and its applications.

**Indicative Topics/Areas**

This session deals with new technologies for intelligent algorithms and architectures for image and signal processing. This special session combines advanced research themes in multimedia systems, image processing, signal processing, as well as their applications. Topics of interest include, but are not limited to:

- Image identification and its applications
- Signal processing and its applications
- Multimedia applications
- Embedded VLSI design for multimedia signal processing

Prospective contributors are invited to submit their paper to Prof. Liu by email [ccl@ncut.edu.tw](mailto:ccl@ncut.edu.tw). All presented papers will be published in the Proceedings and the excellent papers will be recommended for publication in the special issue of SCI Journal.
